Doctor of Medicine (MD)

Certified Wound Specialist Physician (CWSP)

1. BIOGRAPHY

Dr. Bradley R. Ertel is a highly skilled and compassionate physician specializing in wound care. With a commitment to providing holistic and comprehensive treatment, Dr. Ertel has dedicated his career to improving patient outcomes. His expertise extends to various medical settings, from outpatient wound care clinics to medical rehabilitation units.

Dr. Ertel currently serves as an Attending Physician at Mercy Ambulatory Care Center in Orchard Park, NY, where he focuses on wound care in the outpatient setting. Since joining the center in 2020, he has implemented a holistic approach to wound care delivery, ensuring that patients receive comprehensive treatment. Dr. Ertel is certified in performing debridements, casting, and biopsies, and he is also well-versed in hyperbaric oxygen therapies. His collaboration with a wide variety of specialists further enhances his ability to provide optimal care to patients.

In addition to his role at Mercy Ambulatory Care Center, Dr. Ertel has extensive experience in medical rehabilitation. He previously served as an Attending Physician at Kenmore Mercy Hospital from 2012 to 2020, as well as at South Buffalo Mercy Hospital from 2012 to 2020. In these positions, Dr. Ertel led interdisciplinary teams in delivering rehabilitative care. He performed consults to establish the appropriate length of care and disposition, and he led weekly team conferences to develop individualized rehabilitative plans for patients. Dr. Ertel's advocacy for patient care within the context of financial considerations has earned him recognition for his dedication and leadership.

Dr. Ertel's educational background is exemplary. He received his Doctor of Medicine degree from the State University of New York at Buffalo's School of Medicine and Biomedical Sciences in 2008. Prior to that, he obtained a Master of Science degree in Biology from Roswell Park Cancer Institute in 2004. He completed his undergraduate studies at Canisius College, graduating with a Bachelor of Science degree in Biology, Magna Cum Laude, in 2002.

Dr. Ertel's commitment to professional development is evident through his board certifications. He achieved board certification in Physical Medicine and Rehabilitation from the American Academy of Physical Medicine and Rehabilitation in 2015. In 2022, he obtained board certification in wound care from the American Board of Wound Management.

Throughout his career, Dr. Ertel has been recognized for his achievements and contributions. He was included on the Canisius College Dean's Honor List for all semesters and was a member of the Tri-Beta Biology Honors Society in 2001. Dr. Ertel also received the New York State 1998 Scholarship for Academic Excellence and the Bausch and Lomb Science Award in 1998.

In addition to his clinical work, Dr. Ertel has demonstrated his dedication to the medical community through administrative and research endeavors. He served as a member of the Catholic Health System medical bylaws committee in 2014. Dr. Ertel has also contributed to medical research, with a particular focus on thermal regulation and its effects on diabetes. His research findings have been published in reputable scientific journals and presented at national conferences.

Outside of his professional responsibilities, Dr. Ertel actively engages in volunteer work. He has participated in initiatives such as Brush Up Buffalo, where he assisted in renovating low-income housing, and the Lighthouse Clinic, where he provided healthcare to the destitute. Dr. Ertel also volunteered with Habitat for Humanity, contributing to the construction of low-income housing.

With his dedication to fulfilling quality measures, strong communication skills, and collaborative approach, Dr. Bradley R. Ertel continues to make a significant impact in the field of wound care. His attention to detail, willingness to take charge in complex clinical situations, and thirst for knowledge further exemplify his commitment to providing excellent patient care.
